MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT: Sixth Annual Report of the Committee on Documentation
(CODIB)

1. The attached Sixth Annual Report of the Committee on Documentation (CODIB) is forwarded for information of Intelligence Board members.

2. It is not planned to place this Report on the agenda of a USIB meeting, unless the Secretariat is requested by a Board member to so do.

UNITED STATES INTELLIGENCE BOARD
COMMITTEE ON DOCUMENTATION

Sixth Annual Report

Authorization

The USIB Committee on Documentation (CODIB) operates under DCID 1/4 (New Series) dated 26 June 1959.

Scope

This report covers CODIB activities during Fiscal Year 1964, with an attached checklist (Appendix A) of documents issued; membership is reflected in Appendix B. As in previous years, there appears to be continued interest in specific information processing developments in individual member agencies, hence these will be reflected in Appendix C, to be distributed subsequently under separate cover.

Activities

Again, as in FY 63, the principal concern of the Committee was the Staff for the Community Information Processing Study (SCIPS), and particularly its Stage I report, transmitted as a six volume (including special channels) attachment to the

Committee's report to USIB, issued as USIB-D-39.7/5 of 16 March 1964. To monitor SCIPS developments and to consider other subjects of interest, eight meetings were held and 29 staff papers were issued, of which 12 were concerned with SCIPS and nine with Intelligence Objective No. 3 from Mr. McGeorge Bundy's memorandum to the Chairman, USIB [] 7 June 63) - a SCIPS-related subject. Out-of-area and local trips and briefings on new systems or equipment developments deferred to bi-lateral discussions, particularly on machine-language file-sharing, among CIA, DIA, NSA and State systems designers and operators; the only new-development briefing given CODIB as a body concerned CIA's Automatic Language Program (ALP), a machine-assisted translation/Stenowriter system being developed with IBM. One special, and particularly useful, activity involved a "retreat" to CIA's relocation center on 9-10 December to consider the implications of the SCIPS report and to produce an initial draft report to USIB.

25X1

The Sub-Committee on Classification issued the Third Edition of the Intelligence Subject Code (ISC); the Working Group on Emergency Planning was, for the most part, inactive, awaiting further guidance on future Community policy; the Working Group on Remote Systems Input re-activated to consider

and approve Navy's plan for awarding the contract for development of a secure, automatic, machine-language by-product typewriter to the General Dynamics Corporation.
